

**Field Setup Diagram for U11 and U12 fields at full size fields**  
Lower Woodland #2, Shoreline Center A/B, Washington Park, Whitman MS

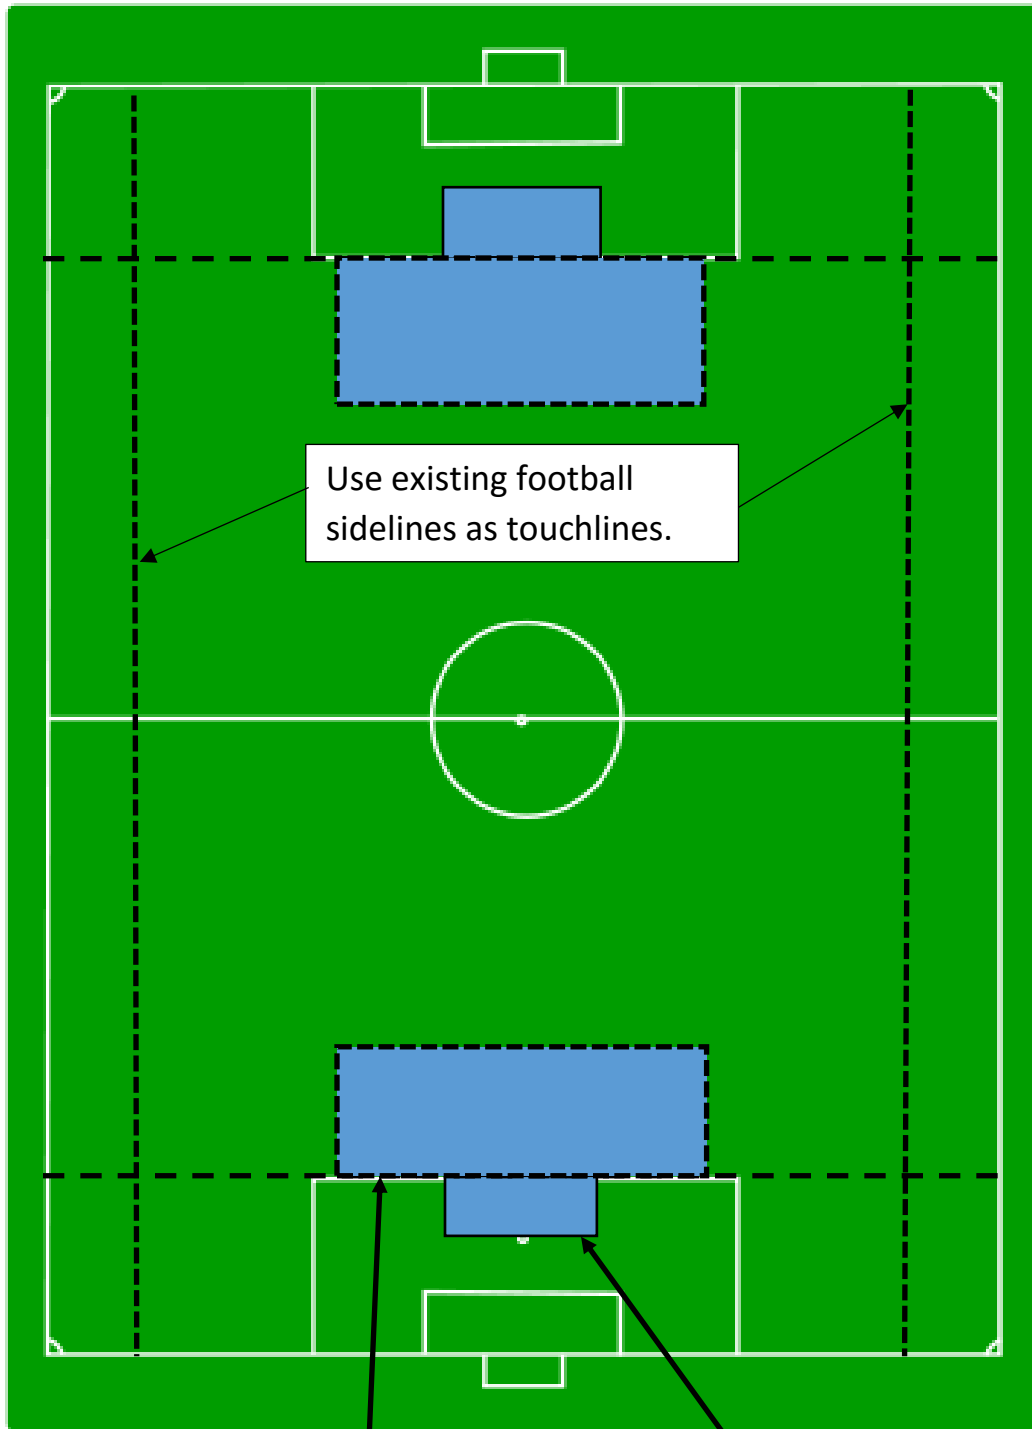

# Whitman Field Setup for U11 and U12 Games

Penalty box and back line marked with cones.

Smaller 6 x 18 goal position.

# Van Asselt Field Setup for U11 and U12 Games

Use existing football sidelines as touchlines.

Penalty box and back line marked with cones.

Smaller 6 x 18 goal position.

## Shoreline A/B U11 and U12 Field Setup

The setup at this field will use flat discs that will usually already be in place at the field.

### Instructions

There are 7 marks on the sidelines for: goal placement (2); goals box (2); penalty box (2); sideline.

1. Goals with wheels are rolled to the far end of the field.
2. Try to minimize the use of the pads. Look to reset after a game as the pads do move around during play.
3. Move full size goals back off the end line and out of the way.
4. After the last game, move the goals, pick up the pads and put them in the bucket, and leave the bucket inside the two extra full-size goals between the lined fields, and then lock the goals.
5. Push the full-size goals back into position.

This diagram and directions will also be posted on the light post at the field.
