

WINNING AND LIFE LESSONS

The research and experiences of great coaches across the country is clear: Positive is Powerful. In this highly interactive workshop — sparked by video-based advice from top pro athletes and coaches on PCA’s National Advisory Board— coaches will explore why and how to pursue both winning and the more important goal of teaching life lessons through sports.

"PCA has led some outstanding coaches workshops for Seattle United, and we look forward to several future presentations that reinforce the kind of culture we want at this club. This partnership provides us with excellent resources we can take back to our players!"

- Alex Chursky

Seattle United, Technical Director
